### Correction

After publication of this work [1], we noted that we inadvertently failed to include the complete list of all coauthors. The full list of authors has now been corrected here and the Authors' contributions and Competing interests section modified accordingly (see below).

### Competing interests

The authors declare that they have no competing interests.

### Authors' contributions

GM, AP were involved in preparation of data analysis, preparation of the manuscript and study coordination; CS, PB, VR, AM were involved in clinical investigation; OP was involved in idea writing of the manuscript, principal investigator and responsible for the study.
